
Industrial Photography

10 East 40th Street, New York 16, N. Y.

1958 EDITORIAL & AUTHOR INDEX

Audio-Visual

AMA lecture rooms equipped for A-V — Feb
Answers to your A-V questions — Jul
A-V briefings solve sales education problem for oil company — Feb
A-V ammunition for GM salesmen — Jun
A-V helps farmers fight root parasites — Aug
Canning company uses slides to maintain plant sanitation — Jan
Color slides aid training program — Sep
Filmstrips convert salesmen into floor-care experts — Jul
GE's visual education operation does the impossible — Nov
NAM puts annual report on filmstrip — Mar
Short cuts to good lantern slides — Sep
Slide presentations sell turkeys — Dec
Slides sell air conditioning — Dec
Socony-Mobil dream A-V facilities come true — Jul
Stockholders preview cars via folding viewer — Dec
Tape recorders grow in usage — Jul
Tape repeater and slide projector aid lingerie manufacturer — Sep
Three-dimensional slides sell drugs — Sep

Business

Drug firm captures spectrum of human emotions in a single photograph — Aug
Lanvin cat ad poses an unusual assignment — Oct
Photo records of automobile wrecks speed repair work — Jan
Restaurant supplier wins customer good will with photos of new installation — Feb
Tempting tastes through creative photography — Jun
Tracer lights and time exposures show motion savings made possible for housewives — Apr

Cinematography

Allis Chalmers film program reaches audience of 7,000,000 — Apr
Animation in company films (1) — Feb
Animation in company films (2) — Mar
Color films train TWA crews — Sep
8mm goes professional — Mar
Employee-shot film teaches inventory technique — Dec
Equipment maintenance — Nov
Four types of screen surfaces — Sep
Hints on storing raw acetate film — Apr
Industrial movies: a workshop in print — Mar
Keeping track of movie costs — Mar
Low-budget sound editing and recording (1) — May
Low-budget sound editing and recording (2) — Jun
Low-cost film documentary — Feb
Motion pictures as public relations tool — Mar
Noise control in industrial cinematography — Jan
Portraits of miracles: medical motion pictures — Jul
Recording the birth of a man-made island — Jan
Saving films with magic Mylar — Jul
Selecting the microphone — Oct
Setting up a motion picture department — Mar
Setting up an in-plant animation department (1) — Jul
Setting up an in-plant animation department (2) — Aug
16mm film shot in the factory offers solution to work-simplification problem — Oct
Split-frame films — Aug
Three levels of motion picture equipment — Mar
Tips on planning a better projection room — Mar
Way to budgeting internal films — Dec

Directories

Custom color services — Sep
Diazo products and producers — Oct
Sheet-film cameras and their tripods — Jan
Ultralong lenses — Jan

Engineering Reproduction

Debulking files at Westinghouse — Oct

Engineering drawings exported overseas Feb
Expert outlines a simple technique for printed circuits on irregular surfaces Feb
IBM reproduces visual engineering change notices through xerography Apr
Make way for photodrawings Jun
Precision photoengraving of carbon steel machine parts May
Reproductions on metal Aug
Technique for three-dimensional printed wiring May
Wrap-around etched circuits Dec

Graphic Arts

Diazotype film aids biologists in microscope research Oct
Electronics company uses photo-offset in do-it-yourself publishing Jan
Fundamental information for an in-plant printing department May
Goodbye to hand lettering at GM Jun
Low-cost multiple copies Oct
Maqua, GE's printing plant Nov
Overhead projector and diazo slides aid teaching Oct
Photo-offset technique enables small staff to turn out two 1400-page catalogs in two months May
Port of New York uses diazo Oct
Sandia Corp. uses an offset handbook to inform engineers of photo-instrumentation aids Feb
Technical breakthrough in diazo research Oct

Graphic Viewpoints

Installing a silk-screen department Jun
Larger lens openings may improve process camera results Jan
Making plates for multilith presses Jul
Photo duplicating units Sep
Photomechanical plates Aug
Pointers on microfilming engineering drawings Apr
Reducing engineering drawings Nov
Setting up an in-plant offset department May
Silk or wire for screen process? Dec
Silk-screen reproduction materials in use (1) Feb
Silk-screen reproduction materials in use (2) Mar
Whiteprint gains importance Oct

Industrial Workshop

Angenieux zoom lens May
Big cameras Jan
Color chart corrections Sep
Detecting gremlins (1) Jun
Detecting gremlins (2) Jul
Detecting gremlins (3) Aug
Diazo and other reproduction processes Oct
Lenses and missiles Feb
Microfilming Apr
Backgrounds Dec
Photographing color in available light Nov
Satellite pathfinder May
Special lenses for movies Mar

Industry

Blast furnace interiors inspected with 4 x 5 view camera May
Bud Harsh's camera caravan Dec
Camera in conduit helps untangle electrical installation problem May
Here is GM Photographic Jun
North American test pilots wear a two-camera helmet Apr
Pictures by the millions from GM's commercial photography department Jun
Simultaneous front and back view photography cuts time and labor Feb
35mm camera surveys well casing at Hughes Tool Co. Mar

Ingenious Practices

"Air ride" camera mount Jun
Billing weights Sep
Cleaning cover glasses Jul
Clip hanger Dec
Clothespin print tongs Apr
Cord hanger Apr
Darkroom timer light Jun
Darkroom trimmer Aug
Dryer shut-off Jul
Electric cord holder Sep
Etched bottle labels Jul
Exposure through ground glass Aug
Fixing prints Apr
Flip-top boxes Dec
Focaslide at infinity May
Gelatin filter cases Oct
Identifying cartridges Mar
Improvised funnel Feb
Lens board reflections Jan
Light-folding mirror Feb
Marking negatives Aug
Microfilm printer Feb
Nonskid for film hangers Feb
Paper box air hole May
Plastic hypo tray Aug
Print counter Aug
Printed layout sheets Oct
Removing backgrounds Nov
Report-size prints Mar
Reversible portrait background May
Rubber gaskets for darkroom bottles Jan
Silhouetting with film Sep
Spotlighting enlarger stops Apr
Spotone colors Dec
Stainless steel reel Aug
Strip lights Jun
Tablespoon palette Aug
Tempering flash Mar
Template for Polaroids Nov
Transparency glass cleaning Jan
Viewfinder mask storage Jan
Washer wrench Sep

Instrumentation

Electronic flash facilitates photomicrography Apr
High-speed camera picks computer brain Feb
High-speed camera records impact-behavior tests May
Investigating stress waves Sep
Learning scientific photography Oct
Motion picture camera adapted to film helicopter-blade whirls Jul
Photographic determination of reaction rates Jan
Photographing an auroral display Nov
Photographing bullets without a camera Aug
Photographing shock waves in daylight Dec
System for checking airplane camera calibration Mar

Microrecording

AMF formula for microfilming Sep
AMPFUR system streamlines trouble shooting for Navy Feb
Copyrama stars a microfilm system Dec
Debulking over 1,000,000 drawing files Aug
Flood-soaked film record reclaimed Jan
Microfilming and xerography team up for Navy Jul
Microphotographic X-ray copying Apr
Microrecording and its uses in research Apr

Microrecording at the Library of Congress Apr
New trends in making prints from microfilm Apr
105mm program helps in solving distribution problem for Corps of Engineers Mar
Prescription for an ailing record-keeping system May
Preserving telephone books Nov
Report of 1958 NMA convention Jun
Selection of a microrecording program Apr
Standardization of microfilming Oct
What's in the future for the microrecording industry? Apr
What is the National Microfilm Association? Apr

Miscellaneous

Army uses photo check on fire power Feb
Automation and the cameraman Nov
Big camera: a special section Jan
Closed-circuit TV comes of age Sep
Color photo workshop at University of Houston Jan
DuPont's wheelmen go round: a picture story Dec
GE's apparatus news bureau uses pictures to tell the story Nov
Giant photomural Jun
Inside Russia with a camera Dec
Life goes to a tri-color computer party Aug
Medical photography in court Feb
National Industrial Photographic Conference Sep
Photographic auto licenses Jun
Photographic ingenuity quotient Nov
Photography at GE: a special section Nov
Photography in the space age Dec
Pointers on ordering supplies Mar
Proving a point: smog photography Jul
Regular camera converted for copy work Aug
Second annual IFAVE in New York Sep
35mm print quality tested Jun
35mm project grows into a photo department Aug
Work control board Nov
WRGB uses photography to solve TV problems Nov

Photographic patent news

Automatic exposure control Sep
Double aerial camera Oct
Ferromagnetic printing plate Jul
Film projection Oct
Flow-type copying camera Dec
Identification camera Aug
Integrated micrographic camera Aug
Multiple copy process Dec
Multiple-image high-speed camera Jul
New motion picture screen Nov
Photographic enlarger with scratch elimination Dec
Polaroid magazine Nov
Protection against film and print fading Jul
Seismic stereoscopic photographs Aug
Self-processing photostat paper Jul
Smoke printing process Sep
Three-dimensional animated cartoons Oct

Radiography

Background of radiography Oct
Composite radiography and its industrial applications Jan
Nature of X rays Nov
Microphotographic X ray copying Apr
Testing gems Sep
X-ray elements Dec
